Manage roles

Manage roles

Administrator

Admins can do most things, like update settings and add other admins.

Member

Members are part of the team, and can add, edit, and collaborate on all work.

Viewer

Viewers can search through, view, and comment on your team's work, but not much else.

Deverlopers

Developers are responsible for implementing features, fixing bugs, and delivering working product increments during each sprint.

QA Tester

Responsible for quality assurance and testing of the tournament management system issues.

Scrum Master

A Scrum Master is a role in Scrum (an Agile framework) responsible for making sure the team follows Scrum practices and works effectively.

Stakeholder

They can view issues, track updates, and participate in discussions but do not directly modify or manage development tasks.

Create role

Stakeholder

Name *

Stakeholder

Description *

They can view issues, track updates, and participate in discussions but do not directly modify or manage development tasks.

People in this role can:

- [ ] Administer "tournament management system"
  Edit access, manage people and permissions, configure issue types and their fields, enable project features, and delete the project.

- [ ] Manage "tournament management system" issues
  Modify reporters and watchers, edit and delete any comments and attachments, adjust work log entries, and delete "tournament management system" issues.

- [ ] Manage "tournament management system" sprints
  Create, start, and complete sprints for "tournament management system" boards.

- [ ] Manage "tournament management system" versions
  Create and manage fix versions for tournament management system via the Releases tab.

- [x] Access development tools
  View development information on any "tournament management system" issue, such as commits, reviews, and build information.

- [ ] Work on "tournament management system" issues
  Edit, assign, transition, link, and log work on any "tournament management system" issue.

Assign this role to:

Name, email or group

e.g. Maria, maria@company.com
